

## CAD Drawings of Green Pin® Turnbuckles

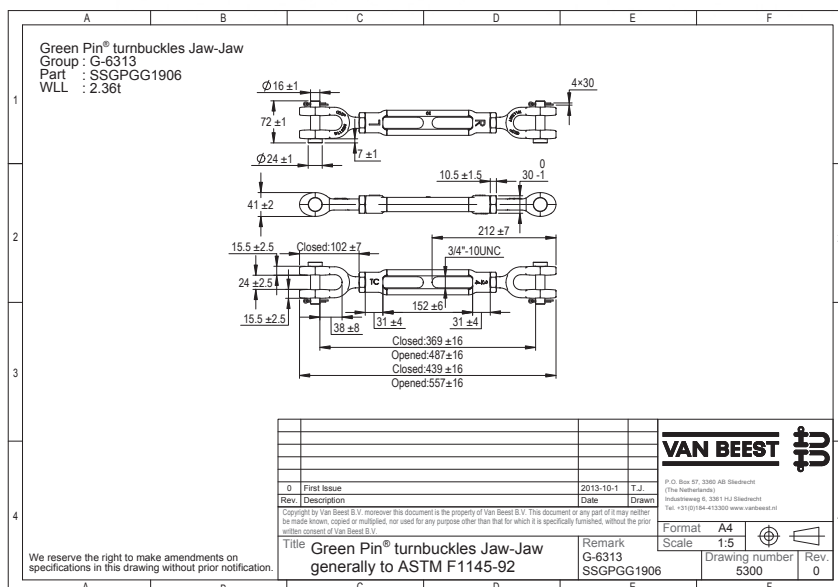

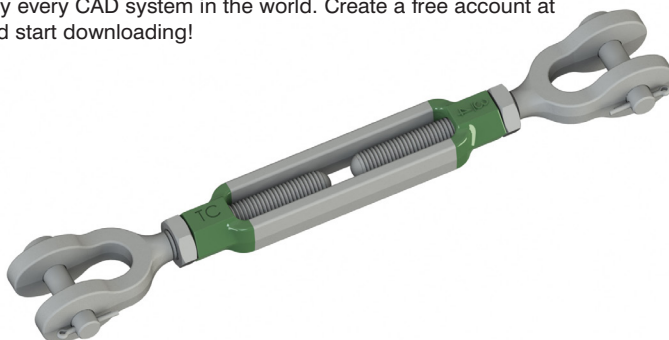

Van Beest made CAD drawings of Green Pin® shackles available a few years ago. Now we are happy to inform you that we also have CAD drawings of Green Pin® Turnbuckles available.

Our Green Pin® products are used in a wide variety of applications; from a simple lift to move an item from A to B in a workplace, to very complex lifting systems for offshore applications. In the latter case, engineers use a number of different CAD programs to develop a 2D or 3D specification of the entire system.

Currently we have drawings available for following products:
